

Entering RoB 2 data in RevMan Web

Rebecka Hall, Product Owner of RevMan
(Central Executive Team, Informatics and
Technology Services)

Demo – Entering risk of bias 2 data

The screenshot shows the RevMan web interface for a practice review titled "[Practice] Caffeine for daytime drowsiness". The interface is divided into several sections:

- Status:** Includes buttons for "Add Review note" and "Add Review title note". It displays the following information:
 - Stage: Full review
 - Review type: Intervention review
 - Phase: Authoring
 - GRADEpro GDT integration: Disabled **GRADEpro GDT**
 - Practice review - so most of the dashboard has been disabled.
- Actions:** Includes buttons for "Tag current version" and "Make global edits".
- Validation:** Shows "Errors: 28" and "Warnings: 10". A link is provided to "View the list of validation rules here."
- History:** A table showing the review's history.
